

Matthew Gawart, MD

▲ As a member of Apex Surgical Partners, Dr. Gawart brings extensive training in all aspects of general surgery. His skill set includes the latest in minimally invasive surgical techniques for reducing patient recovery time while enabling a quicker return to life's activities. His specialties include treatment of the gallbladder and GI tract (including colonoscopy), breast and endocrine disease, skin and soft tissue disease, hernia, and varicose veins. In addition, Dr. Gawart has served as Trauma Medical Director for a Level 2 Trauma Center.

Dr. Gawart's practice philosophy is founded on treating his patients as equals, and respecting their time and concerns. He believes in providing education about the disease process, surgical technique, and recovery so his patients understand the course of their treatment.

Ryan R. Gerry, MD

▲ As a member of Apex Surgical Partners, Dr. Gerry brings a holistic approach to health and a multidisciplinary team approach to managing complex disease. He respects and uses patient-centered values and beliefs to develop comprehensive treatment plans. Dr. Gerry believes his role as a surgeon is to assist each patient in understanding the disease process, the risks and benefits of surgery, and to perform a procedure that is technically excellent and which allows the patient to recover quickly. Whenever feasible, Dr. Gerry performs minimally invasive procedures to minimized patient discomfort, expedite recovery, and reduce hospital stay. He brings significant experience managing acute trauma and burn patients at Level I and II trauma centers. As Chief Resident at Brigham and Women's Hospital, he received the Grant V. Rodkey Award for Excellence, Professionalism and Humanitarianism.
